PROCESS HEAT EQUIPMENT

DESIGNED AND MANUFACTURED

BY

THE G. C. BROACH COMPANY

The G. C. Broach Company has been in business since 1960. During our 50 years in business, we have engineered and manufactured over 1,275 Fired Heaters, 145 Steam Generating Systems, 205 Waste Heat Recovery Units, 51 Air Preheat Systems, and hundreds of Instrumentation and Control Systems. We are certified under A.S.M.E., Sections I and VIII, and by The National Board. Presently we estimate our equipment is producing over 846.5 BILLION BTU's of heat each day.
